6 *Attorneys for Plaintiff*  
7 *KeyState Holdings, LLC*

8  
9 **UNITED STATES DISTRICT COURT**  
10 **DISTRICT OF ARIZONA**

11 KeyState Holdings, LLC, a Nevada limited  
12 liability company,  
13  
14 Plaintiff,  
15 v.  
16 <keystate.holdings>,  
17 Defendant.

CASE NO.  
**COMPLAINT FOR  
CYBERSQUATTING**

18 For its Complaint, Plaintiff KeyState Holdings, LLC (“KeyState” or “Plaintiff”),  
19 through counsel, alleges the following:

20 **NATURE OF THE CASE**

21 This is an action against the <keystate.holdings> domain name (the “Defendant  
22 Domain Name”) based on the Anti-cybersquatting Consumer Protection Act (“ACPA”),  
23 15 U.S.C. § 1125(d). The Defendant Domain Name has been registered, trafficked in,  
24 and/or used with a bad faith intent to profit from KeyState’s trademarks in violation of  
25 the ACPA. Designed to impersonate KeyState, the Defendant Domain Name is being  
26 used to divert unsuspecting consumers to an unaffiliated fraudulent website, purposely  
27 designed to confuse consumers and potentially exposing consumers to phishing scams,  
28 identity theft, or other types of fraud. KeyState seeks injunctive relief and the transfer of  
the Defendant Domain Name.

1 **JURISDICTION AND VENUE**

2 1. This Court has subject matter jurisdiction over this case pursuant to 28  
3 U.S.C. §§ 1331 and 1338(a).

4 2. Upon information and belief, this Court has *in rem* jurisdiction over the  
5 Defendant Domain Name pursuant to 15 U.S.C. § 1125(d)(2)(A). KeyState, through due  
6 diligence, has not yet been able to find a person who would have been a defendant  
7 because the identity of the registrant of the Defendant Domain Name is concealed by a  
8 privacy service. 15 U.S.C. § 1125(d)(2)(A)(ii). Additionally, under 15 U.S.C. §  
9 1125(d)(2)(C), the Defendant Domain Name is deemed to have its situs in this judicial  
10 district because NameCheap, Inc. (“NameCheap”) – the domain name registrar – is  
11 located in Phoenix, Arizona.

12 3. Pursuant to 15 U.S.C. § 1125(d)(2)(A)(ii)(II)(aa), KeyState will give notice  
13 of the violation of its rights and of its intent to proceed *in rem* to the postal and e-mail  
14 addresses set forth in the WHOIS registration records for the Defendant Domain Name.

15 4. Venue is proper in the United States District Court for the District of  
16 Arizona under 28 U.S.C. §§ 1391(b)(2) and 15 U.S.C. § 1125(d)(2) because the property  
17 – the Defendant Domain Name – is located in the District of Arizona and the entity that  
18 maintains the registration for the Defendant Domain Name – NameCheap – is located in  
19 the District of Arizona.

20 **PARTIES**

21 5. Plaintiff KeyState Holdings, LLC (“KeyState”) is a Nevada limited liability  
22 company with its principal place of business in Las Vegas, Nevada.

23 6. <keystate.holdings> is an Internet domain name registered on April 29,  
24 2021, through domain name registrar NameCheap, utilizing a privacy service. A true and  
25 accurate copy of the WHOIS registration record for the <keystate.holdings> domain  
26 name is attached hereto as Exhibit 1.

27 **ALLEGATIONS COMMON TO ALL COUNTS**

28 7. KeyState provides financial services in the areas of investments, treasury,

1 regulatory compliance, corporate governance, and risk management.

2 8. KeyState has developed best practices in portfolio management, investment  
3 subsidiary services, captive management, and portfolio credit analysis.

4 9. Among KeyState's many services, it also assists community banks in  
5 identifying, underwriting, placing, and managing solar tax credit investments, and  
6 financing mid-size solar power projects throughout the United States.

7 10. KeyState owns the following trademark registrations:

8 **KEYSTATE:** (Reg. No. 4,213,761) Class 36 for financial portfolio management  
9 services; financial services, namely credit analysis, investment management;  
10 insurance services namely, captive management insurance.

11 **KEYSTATE:** (Reg. No. 4,213,750) Class 35 for accounting services; advisory  
12 services relating to business management and business operations.

13 (the KEYSTATE® Marks). Copies of the registrations for the KEYSTATE® Marks are  
14 attached as Exhibits 2 and 3. These federal trademark registrations have not been  
15 abandoned, canceled, or revoked. Moreover, these federal registrations have become  
16 incontestable through the filing of Section 8 and 15 affidavits.

17 11. Since 1991, KeyState has continuously used the KEYSTATE® Marks in  
18 connection with advertising and promotion of its services in the United States and around  
19 the world. KeyState has spent over \$2 million dollars to advertise and promote the  
20 KEYSTATE® Marks in print, digital media, sponsorships, and endorsement arrangements  
21 with over twenty five industry associations, and on the Internet through the KeyState  
22 website, located at <key-state.com>. A true and accurate copy of the <key-state.com>  
23 website is attached hereto as Exhibit 4.

24 12. KeyState has made extensive use of the KEYSTATE® Marks on, among  
25 other things, signage and promotional materials. Based on its federal trademark  
26 registrations and extensive use, KeyState owns the exclusive right to use the  
27 KEYSTATE® Marks in connection with financial services and related goods and  
28

1 services.

2 13. The KEYSTATE® Marks are distinctive for financial services and related  
3 goods and services.

4 14. On April 29, 2021, the registrant of the Defendant Domain Name registered  
5 <keystate.holdings> with NameCheap, a registrar of domain names, utilizing a privacy  
6 service. The <keystate.holdings> domain name unequivocally contains the KEYSTATE®  
7 Marks.

8 15. Sometime after registration, the registrant of the Defendant Domain Name  
9 linked <keystate.holdings> to a website purportedly offering financial and investment  
10 services, including financing for solar projects by “identify[ing] and facilitate[ing] the tax  
11 advantages.” A true and accurate copy of the <keystate.holdings> website home page and  
12 “Services” page are attached as Exhibit 5.

13 16. The Defendant Domain Name not only used the KEYSTATE® Marks in the  
14 domain name, but also included references to KeyState’s physical address, KeyState’s  
15 Nevada Secretary of State Entity ID, and Nevada Business ID in the footer of each page  
16 of the website. Upon information and belief, the registrant included this information on  
17 the website to add a false sense of legitimacy to the site and to intentionally confuse  
18 consumers into believing both sites are operated and approved by KeyState, when they  
19 are not. *See* Ex. 5.

20 17. In what can only be a further attempt to legitimize the infringing website,  
21 the registrant of the Defendant Domain Name also audaciously added a copyright  
22 designation to the footer of the website linked to the <keystate.holdings> domain name,  
23 which reads Copyright ©2021 KeyState Holdings All Rights Reserved.” *See* Ex. 5.

Copyright ©2021 KeyState Holdings. All Rights Reserved.

COMPANY NAME: Keystate Holding, LLC ENTITY NUMBER: E0475242011-8 STATUS: ACTIVE BUSINESS TYPE: Domestic Limited Liability Company. BUSINESS ID:  
NV20111552726 FILE DATE: 8/24/2011 Keystate Holdings, LLC 101 convention center drive, suite 850 STATE: NV CITY: LAS VEGAS ZIP CODE: 89109 PO.BOX: 50102

1           18. Given the registrant’s blatant unauthorized use of the KEYSTATE® Marks,  
2 KeyState’s address physical address, KeyState’s Nevada Secretary of State Entity ID,  
3 Nevada Business ID, and copyright designation, there is no question the registrant of the  
4 Defendant Domain Name registered and is using it in bad faith, and is attempting to  
5 create an association between the Defendant Domain Name, the associated website, and  
6 KeyState.

7           19. KeyState already has evidence the registrant’s bad faith and fraudulent  
8 efforts have been successful.

9           20. On September 1, 2021, a defrauded consumer contacted KeyState  
10 complaining that he had lost \$1,000.00 through his use of the <keystate.holdings>  
11 website.

12           21. Indeed, the registrant of the Defendant Domain Name appears to be  
13 engaged in a multi-tiered fraud scheme, invoking KeyState’s business information, as  
14 well as masquerading as Coinbase, a cryptocurrency exchange platform.

15           22. According to the defrauded consumer, he was contacted by an unknown  
16 party through the Telegram messaging app and invited to invest money through the  
17 <keystate.holdings> website. The consumer invested money and his investment grew to  
18 approximately \$37,000 and was held, the consumer believed, in a Coinbase account.  
19 When the consumer attempted to withdraw the money, he was informed he would need to  
20 pay \$6,700 to upgrade his account and obtain the money.

21           23. The consumer received email messages purportedly from Coinbase support,  
22 only to realize after the fact that the “Coinbase support” email address was fraudulent and  
23 actually came from a GMail account, rather than from the <coinbase.com> domain name.  
24 Presumably, the registrant of the Defendant Domain Name or someone at the registrant’s  
25 direction created the false GMail account in an effort to swindle consumers.

26           24. Setting aside the fraud designed to harm consumers, which is significant,  
27 KeyState will also suffer harm to its reputation, including with federal and state  
28 regulators, as well as law enforcement.

Terms of Use: Donuts Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Donuts does not guarantee its accuracy. Users accessing the Donuts Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to: a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Donuts or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Donuts Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://donuts.domains/about/policies/whois-layered-access/> Donuts Inc. reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL  
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE  
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

***First Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. *See* 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.\*  
*See* 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**The United States Patent and Trademark Office (USPTO) will NOT send you any future notice or  
reminder of these filing requirements.**

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the USPTO. The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. *See* 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. *See* 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

Many ways to invest, one place to do it.

VALUE INVESTING

#### CRYPTO TRUST

The relative success of the Bitcoin proves that money first and foremost depends on trust. Neither gold nor bonds are needed to backup a currency

#### MATHEMATICAL FRAMEWORK THAT WORKS

We have elected to put our money and faith in a Mathematical framework that is free of politics and human error

#### WHY CLEAN ENERGY

All energy is ultimately derived from the sun and harvesting it directly through solar power seems to be the best way to transition to renewable energy.

## A relationship on your terms.

How we work together.

Our work requires a variety of disciplines. These are the different roles we think about, when building our technology groups across the company.

#### NON FARM PAYROLL

This is a compiled name for goods, construction and manufacturing companies in the U.S.

## GOLD

We classify gold as a specific metal that are considered rare and have high economic value compared to other metals

## BITCOIN

Bitcoin is a Cryptocurrency, a form of electronic cash.

## RENEWABLE ENERGY

Keystate Holdings On Renewable Energy is energy that is collected from renewable resources

## FOREX

Forex, also known as Foreign exchange, FX or currency trading, is a decentralized global market where all the world's currencies trade

This is a compiled name for goods, construction and manufacturing companies in the U.S. it does not include farm workers, private household employees, or non-profit organization employees.

READ MORE

## The Knowledge of Clean Energy

Cryptography is the essential building block of independence for organizations on the internet, just like armies are the essential building blocks of states because otherwise one state just takes over another

The sun--that power plant in the sky--bathes Earth in ample energy to fulfill all the world's power needs many times over. It doesn't give up carbon dioxide emissions. It won't run out. And it's free.

Another advantage of solar energy is it's safety. An enormous amount of time, money, and energy is put into keeping fossil fuel plants and nuclear plants safe. And oil spill can devastate the surrounding environment.

We are now running out of gas and oil, we must prepare quickly for a third change, to strict conservation and to the use of coal and permanent renewable energy sources, like solar power.

Gold is a great way to preserve wealth, but it is hard to move around. We do need some kinds of alternatives and Bitcoin fits the bill

Blockchain is an incorruptible digital ledger of economic transactions and can be programmed to record not just financial transactions but virtually everything of value.

MENU ≡

## Services

Keystone Holdings provides “electrical power” to commercial entities; we own the generation system, but you “own” the power. Our business strategy removes the financial barriers and risks usually associated with capital purchase and installation of leading edge technology. There are no capital cost to the client for the installation of our EnergyModule systems. We provide electricity, hot water, A/C and space heat with guaranteed deep discounts against grid power tariff rates. We invest in our suppliers to maximize the efficiency of our components and reliability of our supply system.

### Solar Energy Development.

WE believe in solar and as consumers and governments around the world strive to reduce the cost of energy and reduce the production of harmful greenhouse they will to. In one minute, the sun provides enough energy to run the world for a year, if it could only be better utilized. We are betting innovative solar companies will do just that. The efficiency and effectiveness of current renewable energy technology and projects are being Constantly evaluated for opportunities to improve them, and they are improving. We are located in Nevada, which has positioned itself, in the near term to become one of the world’s leading generators of electricity, from solar energy. We are uniquely qualified, to benefit from that positioning. Our past experience in renewable energy has mostly been with wind, but we are now aggressively pursuing solar ventures as well.

We are not tied to any particular technology, and intend to provide diversified solutions to specific energy opportunities. We will utilize the best ideas and processes. However, even the best ideas and processes cannot Succeed If they are under funded, and in the energy world, not tax advantaged. We

rally the financing, and provide access to end users, we procure and plan projects, we identify and facilitate the tax advantages; and as a bonus, we have the ability from our internal product demand to incubate company start-up and ensure success.

## Investment Approach

Keystate Holdings investment approach and philosophy allows us to seek our technologies and fund companies that have the potential to create and change core market segments. Our capital model and tax advantaged approach allows us a certain flexibility and continuity not otherwise enjoyed by other venture companies. We can find companies at the very early stages and stay with them long term. We provide the financing, but you will still run the company.

## Asset Management

The asset management and restructuring department of Keystate Holdings maintains an active oversight responsibility for itself and various other clients. We have client agreement and are committed to reducing the multi-million dollar energy cost of these assets. This is our main source of a rapidly growing internal demand for renewable energy. As a bonus our asset management professionals are equity financing and tax advantage experts and can provide that service to all of our partners.

## How we work together

Our work requires a variety of disciplines. These are the different roles we think about, when building our technology groups across the company.

### NON FARM PAYROLL

This is a compiled name for goods, construction and manufacturing companies in the U.S. it does not include farm workers, private household employees, or non-profit organization employees.

### GOLD

We classify gold as a specific metal that are considered rare and have high economic value compared to other metals

## BITCOIN

Bitcoin is a Cryptocurrency, a form of electronic cash. It is a decentralized digital currency without a central bank or single administrator that can be sent from user to user on the peer-to-peer bitcoin network without the need for intermediaries.

## RENEWABLE ENERGY

Keystate Holdings On Renewable Energy is energy that is collected from renewable resources, which are naturally replenished on a human timescale, such as Sunlight, Wind, Rain, Waves, Tides and geothermal heat.

## FOREX

Forex, also known as Foreign exchange, FX or currency trading, is a decentralized global market where all the world's currencies trade
